

# **The Jewish Puzzle & Why They Will Always be in Conflict With Gentiles**

I bear malice towards none.

Around 7-10 years ago, I had plenty of direct inter-actions with dozens of Mossad's agents, **Sayanim & Impostors**.

These were people Mossad had deployed at my work place to stalk, spy and sabotage me.

In my opinion, all of them believed I didn't know they were working for Mossad.

From my frequent interactions with these Mossad Sayanim & Impostors, I was convinced that they had NO clue why Mossad considered me its enemy.

Can you imagine people hired to spy and torment a person, yet they do not know why that person is being subjected to such terror?

Mossad, the Israeli spy agency, has declared me their enemy, yet I have a clean police record, have never worked for any security agency, do not come from a rich country, and do not hate Israel.

The reason most people cannot understand why an agency like Mossad can declare an ordinary person like me their enemy, is because they do not understand Mossad.

Mossad's motto is: By Way of Deception, Thou Shalt Do War.

And they follow that motto to the letter.

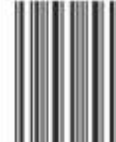

They have deceived everyone.

This book describes some very strange extra-legal tactics they have used against me.

I am NOT an antisemite.

I am a Christian – brought up attending church every Sunday.

In fact, 15 years ago, I was very pro-Israel and pro-Jew; and since Mossad was stalking and sabotaging me even then (without my knowledge), they DEFINITELY knew that.

Therefore, Mossad did not decide I was their enemy because they viewed me as a threat to Jews.

Furthermore, when Mossad started stalking and sabotaging me, I was not a politician (even now I am not), I was not rich (even now I am not), I was not a well-known person beyond my village (even now I am not), and I was not working in a security related sector (even now I am not) – I was just an ordinary Kenyan eking out a living.

Actually, when I discovered it was Mossad terrorising me, I thought it was a case of mistaken identity – Because I believed, like most people still do, that Israel was a friend of Christians.

This is strange, but true.

Anyway, from my FORCED inter-actions with Jews, and also my research (since I became curious about what was wrong with these people), I can summarise Jewish behaviour as follows:

**NB:** When I talk of Jews, I am not talking about Jews like Mordechai Vanunu, Bobby Fischer (chess player) etc because they are DIFFERENT Jews.

Maybe these DIFFERENT Jews could be 1,000, 2,000...who knows?

1. A Jew could be working as a doctor, lawyer, journalist, chef...He/She does nothing different from their Gentile colleagues.

Therefore, they would make you believe a Jew is 'like any Gentile'.

However, what this Jew will never tell you is that, if they were required to help the 'Jewish cause' by Mossad, they would say YES (this has been confirmed by several former Mossad agents).

And if that help included spying or sabotaging you, they will do it, for the 'Jewish cause' - Even though they have no clue why ruining your life is supposed to help the 'Jewish cause'.

Therefore, this Jewish colleague now becomes your tormentor, yet you would never suspect them.

This means that technically, every Jew – minus the DIFFERENT Jews – is a potential threat to Gentiles.

All they need to become a real threat to a Gentile, is for them to be 'activated' by Mossad.

No other community in the world behaves like that.

And when Gentiles notice these abnormalities, rather than stopping doing these things, they cry antisemitism.

2. Mossad is involved in serious criminal activity in many countries around the world.

The only reason this is not public knowledge is because Mossad has also conquered most Western intel agencies.

These terror activities by Mossad make all non-Jewish lives very difficult.

**TEST:** If you are a Gentile, and have a Jewish friend/associate, ask them whether they would condemn Mossad if the terror allegations against it are proved to be true.

As for me, all the Jewish people I have engaged with on social media have refused to condemn Mossad's criminal activities.

## **HISTORY**

For thousands of years: Jews would be welcomed in a certain kingdom/country as minorities.

After a few generations, there would be public outcry about their 'unacceptable activities'.

They would be ordered to stop those activities.

They would not stop those 'unacceptable activities'

Eventually, the Jews would be expelled from the country/kingdom.

According to the Jews, what Gentiles considered to be 'unacceptable activities', were, to them, right and just.

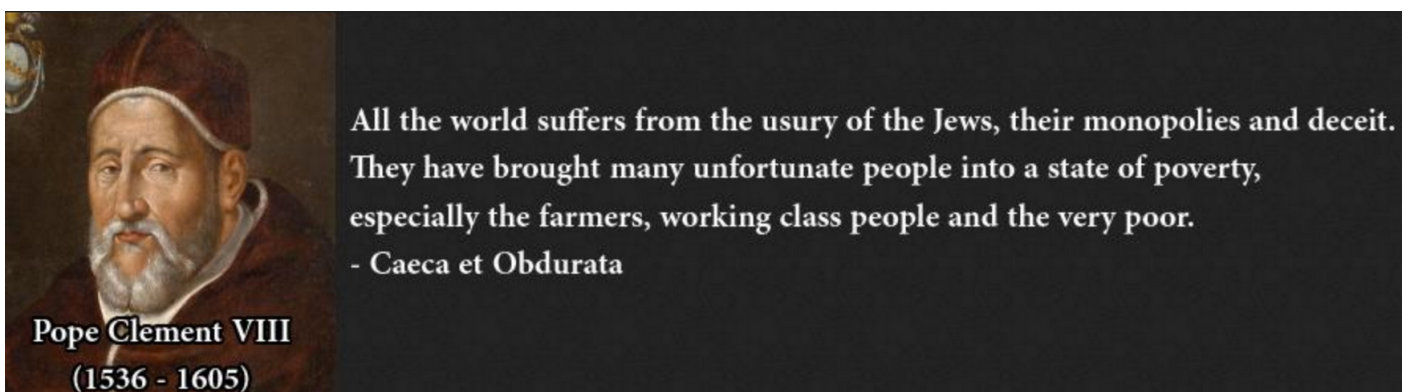

Therefore, they believed they had been expelled from the country/kingdom out of malice.

In their new country, they would lie low for a while, then start practising the same activities that made them get expelled from previous country/kingdom.

This pattern has been repeated for thousands of years.

Currently, Jews want Gentiles to treat Israel as their ally, yet Israel is using Mossad to destroy Gentiles' countries.

Does that make any sense?

## How lucky can a country be?

Israel receives **the most foreign aid of any nation on earth.**

**Since WWII, the US has provided more foreign aid to Israel than to any other country.**

Israel has **guilt-tripped** Germany to make them weapons – for FREE – that are **so advanced that German military doesn't have them.**

Germany has donated to Israel ADVANCED ships and submarines worth tens of BILLIONS of dollars – including some that are designed to carry nuclear weapons (Yet German navy – the **Deutsche Marine** – doesn't have such ultra-modern submarines).

## Israel Launches New Submarine, First In World With Modern Missiles In Sail

The Israeli Navy is known for the secrecy surrounding its submarine force. 5 Dolphin-I/II class submarines are believed to carry nuclear-armed missiles. Now the latest boat, INS Drakon, has been quietly launched in Kiel, Germany. It appears to have new, larger, missiles.

On average, Israelis have better quality of life than people in their donor countries.

On top of that, Israel uses a significant part of foreign aid it receives to fund Mossad.

Mossad uses that money to fund its network of saboteurs scattered all over the world

– In its plot to conquer the world on behalf of Israel.

Amazing.

What is the motive?

All I know is that they see it as a **religious obligation**, to eventually rule the whole world.

When you are hurt by these sabotage operations Mossad runs worldwide, you definitely dislike Mossad/Israel, for hurting you/your country.

But to Jews (as a group), it is you who 'don't understand' i.e. To them, you are the problem (for not liking it when they torment you).

**"Do unto others as you would have them do unto you"** - Jews view this as a very ridiculous phrase, because what they do unto others, they DEFINITELY wouldn't want it done unto them.
